BST ProControl GmbH merging with BST eltromat International GmbH

Dear Sir and Madam,

In order to further optimize our organization and processes, we have completed the merger of our subsidiary BST ProControl GmbH with BST eltromat International GmbH over the last few weeks.

For you as a customer, the merging of our sales and service resources means that you can now communicate more efficiently and more purposefully with our company. Your familiar contacts in sales and service will remain available to you. They are now seamlessly integrated into our company-wide processes and can respond more quickly to your concerns. At the same time, the integration of the employees into the global team of BST eltromat International facilitates the development of integrated concepts and solutions for your individual requirements.

Both the know-how and the products of the existing company BST ProControl perfectly match the services provided by BST eltromat International. This was yet another reason for merging the two companies. They now have a unique worldwide service in terms of quality assurance in web-oriented production processes.

With this merger, existing contracts, terms of payment, and conditions you agreed on with BST ProControl GmbH will remain valid. BST eltromat International GmbH will be the legal successor of BST ProControl GmbH.

BST ProControl now operates as follows:

**BST eltromat International GmbH
Heidsieker Heide 53
33739 Bielefeld**

VAT ID: DE 811 122 306

We look forward to continuing working with you!

Kind regards,

BST eltromat International GmbH

Kristian Jünke

Dr. Johann-Carsten Kipp
